

# SUBJECT INDEX: VOLUME 55

## Accessory pathway

- Paradoxical delay in accessory pathway conduction during long R-P tachycardia after interpolated ventricular premature complexes, 1223

## Acquired immune deficiency syndrome

- Cardiac aspergillosis in acquired immune deficiency syndrome, 1239
- Cryptococcal myocarditis in acquired immune deficiency syndrome, 1240

## Adenosine

- Comparative electrophysiologic effects of adenosine triphosphate and adenosine in the canine heart: influence of atropine, propranolol, vagotomy, dipyridamole and aminophylline, 571

## Adenosine triphosphate

- Comparative electrophysiologic effects of adenosine triphosphate and adenosine in the canine heart: influence of atropine, propranolol, vagotomy, dipyridamole and aminophylline, 571

## Aging

- Effects of training on systolic time intervals at rest and during isometric exercise in men and women 61 to 67 years old, 797

## AJC 25 Years Ago

- The AJC in April 1960, 1115
- The AJC in February 1960, 616
- The AJC in January 1960, 244
- The AJC in June 1960, 1661
- The AJC in March 1960, 867, 868
- The AJC in May 1960, 1449

## Ajmaline

- Electrophysiologic and antiarrhythmic actions of bepridil: comparison with verapamil and ajmaline for atrioventricular reentrant tachycardia, 1513

## Albumin

- Albumin-induced changes in the electrocardiographic QRS complex, 1530

## Alcohol

- Acute effects of alcohol on left ventricular function in healthy subjects at rest and during upright exercise, 164

## Ambulatory monitoring

- See also Holter monitoring
- Blood pressure and heart rate responses during 24-hour ambulatory monitoring and exercise in men with diabetes mellitus, 801

## Aminophylline

- Comparative electrophysiologic effects of adenosine triphosphate and adenosine in the canine heart: influence of atropine, propranolol, vagotomy, dipyridamole and aminophylline, 571

## Amiodarone

- Acute hemodynamic and antiischemic effects of intravenous amiodarone, 639
- Cardiac arrest and sudden death in patients treated with amiodarone for sustained ventricular tachycardia or ventricular fibrillation: risk stratification based on clinical variables, 372
- Intravenous and oral loading versus oral loading alone with amiodarone for chronic refractory ventricular arrhythmias, 89
- Multicenter low-dose amiodarone trial for "severe" ventricular arrhythmias (LE), 622

## Results of late programmed electrical stimulation and long-term electrophysiologic effects of amiodarone

- therapy in patients with refractory ventricular tachycardia, 375
- Study of Wolff-Parkinson-White syndrome by transesophageal pacing and assessment of long-term amiodarone therapy, 852
- Suppression of arrhythmias within hours after a single oral dose of amiodarone and relation to plasma and myocardial concentrations, 696
- Usefulness of electrophysiologic testing in evaluation of amiodarone therapy for sustained ventricular tachyarrhythmias associated with coronary heart disease, 367
- Value of Holter monitoring in identifying risk for sustained ventricular arrhythmia recurrence on amiodarone, 709

## Amoxicillin

- Home treatment of infective endocarditis with oral amoxicillin, 1231

## Amyloidosis

- Echocardiographic features of amyloid ischemic heart disease, 608
- Selective binding of nifedipine to amyloid fibrils, 1646
- Worsening of congestive heart failure in amyloid heart disease treated by calcium channel-blocking agents, 1645

## Aneurysm

- Accuracy of left ventricular ejection fraction using the nuclear stethoscope in left ventricular aneurysm, 177
- Aortic aneurysm after patch aortoplasty for coarctation in childhood, 612
- Association of false tendons with left ventricular aneurysm, 1425
- Calcified right ventricular outflow tract aneurysm after repair of tetralogy of Fallot, 611
- Contractile properties of the left ventricle with aneurysm, 338
- Prediction of improvement in left ventricular function after ventricular aneurysmectomy using Fourier phase and amplitude analysis of radionuclide cardiac blood pool scans, 1308
- Prolonged electrical systole and QT > QS<sub>2</sub> secondary to coronary artery disease, 915
- Trauma-induced pseudoaneurysm of the right ventricle: diagnosis by two-dimensional echocardiography, 1658
- Traumatic dissecting coronary arterial aneurysm with subsequent complete healing, 1424

## Angina pectoris

- All that sticks is not a band-aid (LE), 1119
- Angina pectoris before and during acute myocardial infarction: relation to degree of physical activity, 1255
- Calcium antagonists for acute ischemic heart disease, 116B
- Chest pain and "normal" coronary arteries—role of small coronary arteries, 50B
- Clinical and hemodynamic evaluation of propranolol in combination with verapamil, nifedipine and diltiazem in exertional angina pectoris: a placebo-controlled, double-blind, randomized, crossover study, 680

## Cocaine-induced angina pectoris and acute myocardial infarction in patients younger than 40 years, 847

- Combination propranolol and bepridil therapy in stable angina pectoris, 43C
- Combination therapy with calcium-channel blockers and beta blockers for chronic stable angina pectoris, 69B
- Comparative efficacy of 200, 300 and 400 mg of bepridil for chronic stable angina pectoris, 36C
- Comparison of antianginal efficacy of nifedipine and isosorbide dinitrate in chronic stable angina: a long-term, randomized, double-blind, crossover study, 9E
- Comparison of preoperative, operative and postoperative variables in asymptomatic or minimally symptomatic patients to severely symptomatic patients three years after coronary artery bypass grafting: analysis of 423 patients, 362
- Coronary artery luminal diameter in aortic stenosis, 450
- Dynamic coronary obstruction as a cause of angina pectoris: implications regarding therapy, 61B
- Early positive exercise test and extensive coronary disease: effect of antianginal therapy, 267
- Echocardiographic versus hemodynamic monitoring during attacks of variant angina pectoris, 1319
- Effect of coffee on exercise-induced angina pectoris due to coronary artery disease in habitual coffee drinkers, 277
- Effect of intracoronary nitroglycerin on myocardial blood flow and distribution in pacing-induced angina pectoris: quantitative assessment by single-photon emission tomography, 1270
- Effects of verapamil in preventing early postinfarction angina and reinfarction, 900
- Evaluation of bepridil for the treatment of angina pectoris: evidence for preservation of left ventricular function, 30C
- Exercise-induced intermittent angina and ST-segment depression, 1427
- Hemodynamic actions of bepridil during treatment of stable angina pectoris, 55C
- Improved accuracy of the exercise electrocardiogram: identification of three-vessel coronary disease in stable angina pectoris by analysis of peak rate-related changes in ST segments, 271
- Initial coronary air embolus in the differential diagnosis of coronary artery spasm, 657
- Intracoronary thrombolysis 3 to 13 days after acute myocardial infarction for postinfarction angina pectoris, 1453
- Left main coronary artery spasm: angiographic demonstration during spontaneous angina, 585
- Long-term efficacy of bepridil in patients with chronic stable angina pectoris: results of a multicenter, placebo-controlled study of extended bepridil use, 50C

- Prevention of diminished activity of glycyl trinitrate by use of an aerosol (LE), 620
- Prognosis with chest pain and normal thallium-201 exercise scintigrams, 920
- Propranolol-verapamil versus propranolol-nifedipine in severe angina pectoris of effort: a randomized, double-blind, crossover study, 281
- Relation of angina pectoris to coronary artery disease in aortic valve stenosis, 1063
- Relation of antianginal efficacy of nifedipine to degree of coronary arterial narrowing and to presence of coronary collateral vessels, 26
- Safety of acute calcium antagonist withdrawal: studies in patients with unstable angina withdrawn from nifedipine, 27E
- Angiography**
- Acute cardiac rupture and tamponade: angiographic appearance, 588
- Acute effects of alcohol on left ventricular function in healthy subjects at rest and during upright exercise, 164
- Acute myocardial infarction treated with intracoronary streptokinase: a report of the Society for Cardiac Angiography, 871
- Angiographic anatomy of hearts with one ventricular chamber: the true single ventricle, 1363
- Anomalous origin of the left main coronary artery from the right anterior aortic sinus: angiographic definition of anomalous course, 770
- Characterization of ventricular fibrillation during coronary angiography (LE), 249
- Comparison of two-dimensional echocardiographic and angiographic findings in arrhythmogenic right ventricular dysplasia, 1506
- Coronary angioplasty: clinical and angiographic follow-up, 673
- Correlation of saphenous vein bypass graft angiograms with histologic changes at necropsy, 952
- Left main coronary artery spasm: angiographic demonstration during spontaneous angina, 585
- Left ventricular responses to upright isometric handgrip and deadlift in men with coronary artery disease, 1298
- Method for estimating right ventricular volume by planes applicable to cross-sectional echocardiography: correlation with angiographic formulas, 1584
- Mucocutaneous lymph node syndrome: clinical, hemodynamic and angiographic features of coronary obstructive disease, 662
- Nonpenetrating traumatic ventricular septal defect: two-dimensional echocardiographic and angiographic findings, 1242
- Prognostic significance of progression of coronary artery disease, 941
- Right coronary angiography during left anterior descending angioplasty: collateral visualization as a guide to balloon positioning, 845
- Single coronary artery from the right sinus, 865
- Validation in dogs of a rapid digital angiographic technique to measure relative coronary blood flow during routine cardiac catheterization, 188
- Value of radionuclide angiography for predicting specific cardiac events after acute myocardial infarction, 318
- Angioplasty**
- Morphologic changes induced by dilation of the pulmonary valve anulus with overlarge balloons in normal newborn lambs, 210
- Right coronary angiography during left anterior descending angioplasty: collateral visualization as a guide to balloon positioning, 845
- Successful dilatation of a stenotic Blalock-Taussig anastomosis by percutaneous transluminal balloon angioplasty, 861
- Angioplasty, percutaneous transluminal coronary**
- See also Angioplasty
- Acute pericarditis after percutaneous transluminal coronary angioplasty, 843
- Angioplasty for dilatation of complex coronary artery bifurcation stenoses, 1626
- Assessment of hemodynamic significance of isolated stenoses of the left anterior descending coronary artery using thallium-201 myocardial scintigraphy, 342
- Clinical, angiographic, hemodynamic, perfusional and functional changes after one-vessel left anterior descending coronary angioplasty, 347
- Coronary angioplasty: clinical and angiographic follow-up, 673
- Coronary arterial occlusion three months after successful thrombolysis and angioplasty at the same site, 580
- Coronary artery collateral visualization during acute coronary occlusion, 1216
- Early detection of restenosis after successful percutaneous transluminal coronary angioplasty by exercise-redistribution thallium scintigraphy, 357
- Percutaneous transluminal angioplasty of left internal mammary artery grafts, 1215
- Percutaneous transluminal coronary angioplasty after intracoronary streptokinase in evolving acute myocardial infarction, 48
- Percutaneous transluminal coronary angioplasty in acute myocardial infarction without prior thrombolytic therapy, 842
- Relation of coronary arterial occlusion pressure during percutaneous transluminal coronary angioplasty to presence to collaterals, 1264
- Simultaneous percutaneous transluminal coronary angioplasty and transcatheter embolization of iatrogenic aortocoronary vein fistula, 578
- Usefulness of transtentorial coronary pressure gradient measurements during diagnostic catheterization, 910
- Angiotensin**
- See also Renin-angiotensin system
- Cardiovascular effects and regional blood flow distribution associated with angiotensin converting enzyme inhibition (captopril) in essential hypertension, 1023
- Effect of vasodilators on survival in chronic congestive heart failure, 1110
- Animal studies**
- See also Canine studies
- Calcium-channel blocking agents for gastrointestinal disorders, 2108
- Coronary artery spasm after abrupt withdrawal of nitroglycerin in rabbits, 1066
- Effect of ibuprofen on the healing phase of experimental myocardial infarction in the rat, 1609
- Effect of intact endothelium and against platelet-induced coronary artery spasm in isolated rabbit hearts, 1596
- Estimation of mechanical stresses on closed cusps of porcine bioprosthetic valves: effects of stiffening, focal calcium and focal thinning, 1091
- Improved internal defibrillation with twin pulse sequential energy delivery to different lead orientations in pigs, 821
- Microvascular spasm as a cause of cardiomyopathies and the calcium-blocking agent verapamil as potential primary therapy, 179B
- Modification of experimental atherosclerosis by calcium-channel blockers, 165B
- Morphologic changes induced by dilation of the pulmonary valve anulus with overlarge balloons in normal newborn lambs, 210
- Transcatheter closure of patent ductus arteriosus in piglets, 826
- Use of nifedipine to decrease ischemic-reperfusion injury in the surgical setting, 125B
- Antiarrhythmic therapy**
- See also Arrhythmias
- Antiarrhythmic drug efficacy for ventricular tachyarrhythmias associated with coronary artery disease as assessed by electrophysiologic studies, 1494
- Ectopic ventricular tachycardia sensitive to calcium antagonists in acute myocardial infarction in dogs, 1065
- Electrophysiologic and antiarrhythmic properties of bepridil, 59C
- Flecainide: electrophysiologic and antiarrhythmic properties in refractory ventricular tachycardia, 956
- Anticoagulant drugs**
- Usefulness of high-dose anticoagulants in preventing left ventricular thrombus in acute myocardial infarction, 1491
- Antihypertensive therapy**
- Baseline rest electrocardiographic abnormalities, antihypertensive treatment, and mortality in the Multiple Risk Factor Intervention Trial, 1
- Aorto-aortic ectasia**
- Magnetic resonance imaging in aortic valve, ascending aortic and isthmus aortic disease, 1243
- Aorta**
- See also Aortic valve
- Aortic aneurysm after patch aortoplasty for coarctation in childhood, 612
- Effects of age on ventricular-vascular coupling, 1179
- Operative repair of coarctation of the aorta in infancy: results with and without ventricular septal defect, 1555
- Origin of the right from the left main coronary artery (single coronary ostium in aorta), 609
- Aortic arch**
- Abnormal position of the brachiocephalic vein, 234
- Parasternal cross-sectional echocardiographic determination of aortic arch situs: a new approach, 1236
- Aortic dissection**
- Aortic dissection in more than one family member, 236
- Aortic flow**
- Reproducibility of stand-alone continuous-wave Doppler recordings of aortic flow velocity across bioprosthetic valves, 1197

**Aortic impedance**

Effects of age on ventricular-vascular coupling, 1179

**Aortico-left ventricular tunnel**

Aortico-left ventricular tunnel arising from the left aortic sinus, 1657

**Aortic regurgitation**

Aortic regurgitation due to aortic valve prolapse, 1435

Combined first-pass and equilibrium radionuclide ventriculography and comparison with left ventricular/right ventricular stroke count ratio in mitral and aortic regurgitation, 1048

Effects of upright and supine position on cardiac rest and exercise response in aortic regurgitation, 428

Electrocardiographic observations in clinically isolated, pure, chronic, severe aortic regurgitation: analysis of 30 necropsy patients aged 19 to 65 years, 432

Magnetic resonance imaging in aortic valve, ascending aortic and isthmus aortic disease, 1243

Myxoid degeneration of the aortic valve and isolated severe aortic regurgitation, 439

Pattern of left ventricular diastolic filling in chronic aortic regurgitation: a gated blood pool assessment, 127

The king of hearts: analysis of 23 patients with hearts weighing 1,000 grams or more, 485

**Aortic stenosis**

Case-control analysis of risk factors for presence of aortic stenosis in adults (age 50 years or older), 744

Coronary artery luminal diameter in aortic stenosis, 450

Hemodynamic determinants of exercise-induced ST-segment depression in children with valvular aortic stenosis, 1133

Identification of photoproducts liberated by in vitro argon laser irradiation of atherosclerotic plaque, calcified cardiac valves and myocardium, 1192

Measurement of severity of aortic stenosis experimentally produced in dogs without inserting a catheter into the left ventricle, 1097

Percutaneous balloon valvuloplasty for aortic valve stenosis in infancy, 1655

Relation of angina pectoris to coronary artery disease in aortic valve stenosis, 1063

Value of multiple echocardiographic views in the evaluation of aortic stenosis in adults by continuous-wave Doppler, 445

**Aortic valve**

Aortic regurgitation due to aortic valve prolapse, 1435

Detailed anatomy of the normally functioning aortic valve in hearts of normal and increased weight, 454

Echocardiographic demonstration of satellite lesions in aortic valvular endocarditis, 1433

Hemolytic anemia secondary to erosion of a silastic band into the lumen of the pulmonary trunk, 1438

Influence of the aortic component of the second heart sound on left ventricular maximal negative dP/dt in the dog, 205

Magnetic resonance imaging in aortic valve, ascending aortic and isthmus aortic disease, 1243

Measurement of severity of aortic stenosis experimentally produced in dogs

without inserting a catheter into the left ventricle, 1097

Myxoid degeneration of the aortic valve and isolated severe aortic regurgitation, 439

Occlusion of Björk-Shiley aortic valve prosthesis by hypertrophied ventricular septum (LE), 1119

Relation of angina pectoris to coronary artery disease in aortic valve stenosis, 1063

Straddling atrioventricular valve: two-dimensional echocardiographic diagnosis, classification and surgical implications, 505

**Aortocoronary vein fistula**

Simultaneous percutaneous transluminal coronary angioplasty and transcatheter embolization of isthmic aortocoronary vein fistula, 578

**Aortoplasty**

Aortic aneurysm after patch aortoplasty for coarctation in childhood, 612

**Apical trabecular component**

Hypoplasia of the apical trabecular component of the morphologically right ventricle, 862

**Apoprotein B**

Familial aggregation and early expression of hyperapobetalipoproteinemia, 291

**Arginine vasopressin**

Neurohumoral mechanisms involved in congestive heart failure, 15A

**Arrhythmias**

See also Ventricular arrhythmias

Arrhythmias induced during termination of supraventricular tachycardia, 412

Arrhythmias in ischemic and nonischemic dilated cardiomyopathy: prediction of mortality by ambulatory electrocardiography, 146

Complex arrhythmias in mitral regurgitation with and without mitral valve prolapse: contrast to arrhythmias in mitral valve prolapse without mitral regurgitation, 1545

Digoxin and the susceptibility of the canine heart to countershock-induced arrhythmia, 1070

Effect of diltiazem on renal clearance and serum concentration of digoxin in patients with cardiac disease, 1393

Effect of peripheral thyroid hormone metabolism on cardiac arrhythmias, 849

Influence of magnesium ion on human ventricular defibrillation after aortocoronary bypass surgery, 61

Intravenous quinidine: relations among concentration, tachyarrhythmia suppression and electrophysiologic actions with inducible sustained ventricular tachycardia, 92

Postvagal tachycardia, 995

Prophylactic external pacing during cardioversion of atrial tachyarrhythmias, 1632

Signal-averaged electrocardiographic late potentials in patients with ventricular fibrillation or ventricular tachycardia: correlation with clinical arrhythmia and electrophysiologic study, 1350

Slow inward current and cardiac arrhythmias, 89B

Suppression of arrhythmias within hours after a single oral dose of amiodarone and relation to plasma and myocardial concentrations, 696

Systemic hypertension, diuretic drugs, arrhythmias and death, 221

**Arteriography**

Detecting and excluding significant left main coronary artery narrowing by echocardiography, 937

Holter recording during treadmill testing in assessing myocardial ischemic changes, 1200

Ventricular fibrillation during coronary arteriography (LE), 248

**Arteriosclerosis**

Aspirin or dipyridamole individually prevent lipid accumulation in primate vein bypass grafts, 556

**Arteriovenous fistula**

Arteriovenous fistula: a rare complication of arterial puncture for cardiac catheterization, 1445

**Aspirin**

Aspirin or dipyridamole individually prevent lipid accumulation in primate vein bypass grafts, 556

Selective inhibition of thromboxane-related platelet function by low-dose aspirin in patients after myocardial infarction, 589

**Asthma**

Calcium-channel blockers in prophylaxis and treatment of asthma, 202B

**Atenolol**

Cardiorespiratory alterations consequent to endurance exercise training during chronic beta-adrenergic blockade with atenolol and propranolol, 142D

Clearance-based oral drug interaction between verapamil and metoprolol and comparison with atenolol, 1628

Hemodynamic effects of nifedipine given alone and in combination with atenolol in patients with impaired left ventricular function, 15E

**Atherosclerosis**

See also Coronary artery disease

Correlation of saphenous vein bypass graft angiograms with histologic changes at necropsy, 952

Dynamic coronary obstruction as a cause of angina pectoris: implications regarding therapy, 61B

Lipoprotein and apolipoprotein levels in angiographically defined coronary atherosclerosis, 1459

Modification of experimental atherosclerosis by calcium-channel blockers, 165B

Selective absorption of ultraviolet laser energy by human atherosclerotic plaque treated with tetracycline, 1293

**Atrial fibrillation**

Effect of the calcium antagonist diltiazem on atrioventricular conduction in chronic atrial fibrillation, 98

Long-term results of open mitral valve reconstruction for mitral stenosis, 731

**Atrial flutter**

M-mode echocardiography for diagnosis of atrial flutter (LE), 621

**Atrial myxoma**

A new echocardiographic classification of left atrial myxoma, 614

Detection of atrial myxoma by magnetic resonance imaging, 242

**Atrial premature complex**

Macroreentry within the His-Purkinje system initiated by atrial premature complex, 594

**Atrial septal defect**

Hemolytic anemia secondary to erosion of a silastic band into the lumen of the pulmonary trunk, 1438

- Patent ductus arteriosus, atrial septal defect and branch pulmonary artery stenosis: a possible new syndrome, 859
- Pre- and postoperative electrophysiologic assessment of children with secundum atrial septal defect, 519
- Transatrial septal velocity measurement by Doppler echocardiography in atrial septal defect: correlation with Qp:Qs ratio, 1162
- Usefulness of echocardiographic assessment of right ventricular and pulmonary trunk size for estimating magnitude of left-to-right shunt in children with atrial septal defect, 1571
- Atrial septal motion**
- Correlation of paradoxical atrial septal motion and an interatrial pressure gradient in severe tricuspid regurgitation, 1431
- Atrial shunts**
- Two-dimensional echocardiographic localization of residual atrial shunts after the Senning procedure, 1238
- Atrial stimulation**
- Atrial vulnerability in the immature canine heart, 1402
- Premature atrial stimulation during regular atrial pacing: a new approach to study of the sinus node (LE), 1120
- Atrioventricular block**
- Dehydration syncope and atrioventricular block selectively induced by hot food and liquid, 613
- Effect of bradycardia on dispersion or ventricular refractoriness, 1009
- Significance of ventricular pauses of three seconds or more detected on twenty-four-hour Holter recordings, 1005
- Site of conduction delay and electrophysiologic significance of first-degree atrioventricular block in children with heart disease, 1323
- Verapamil-induced retrograde conduction block in a concealed atrioventricular bypass tract, 1222
- Atrioventricular conduction**
- Electrophysiologic and anatomic changes in the atrioventricular junction of dogs after direct-current shocks through tissue fixation catheters, 194
- Atrioventricular node**
- Wenckebach periodicity with apparent 1:2 conduction over the atrioventricular node: the problem of interpretation, 1429
- Atrioventricular pathways**
- Surgical treatment of accessory atrioventricular pathways and symptomatic tachycardia in children and young adults, 1509
- Transvenous catheter ablation of the accessory atrioventricular pathway in the permanent form of junctional reciprocating tachycardia, 1639
- Atrioventricular septal defect**
- Evaluation of atrioventricular septal defect by magnetic resonance imaging, 1158
- Mitral valve cleft without cardiac septal defect causing severe mitral regurgitation but allowing long survival, 1229
- Atropine**
- Comparative electrophysiologic effects of adenosine triphosphate and adenosine in the canine heart: influence of atropine, propranolol, vagotomy, dipyrindamole and aminophylline, 571
- Autopsy**
- Coronary risk factors and their pathway of action through coronary raised lesions, coronary stenoses and coronary death: multivariate statistical analysis of an autopsy series: The Oslo Study, 40
- Balloon angioplasty**
- Detection of platelet deposition at the site of peripheral balloon angioplasty using indium-111 platelet scintigraphy, 495
- Percutaneous balloon valvuloplasty for aortic valve stenosis in infancy, 1655
- Thrombosis complicating balloon angioplasty of left pulmonary artery stenosis after Fontan's procedure: successful treatment with intravenous streptokinase, 610
- Bayes' theorem**
- Some unanswered problems with probability analysis: possible impact on exercise thallium test use, 240
- Bazett's formula**
- More on Bazett's formula (LE), 619
- Beckwith syndrome**
- Focal cardiomyopathy and ectopic atrial tachycardia in Beckwith syndrome, 1234
- Bepridil**
- Combination propranolol and bepridil therapy in stable angina pectoris, 43C
- Comparative efficacy of 200, 300 and 400 mg of bepridil for chronic stable angina pectoris, 38C
- Comparative electrophysiologic profiles of calcium antagonists with particular reference to bepridil, 14C
